

DUAL WEB FORMS

Drug Package, Inc.

You print both labels and forms in one efficient operation that is practical, cost-effective and can help reduce the possibility of errors.

The pressure-sensitive adhesive-backed side of each dual web may carry your prescription label, legend labels and record-keeping labels.

The bond paper side can provide receipts, patient counseling and other vital information.

A Drug Package Dual Web format will provide the exact combination of label sizes and paper receipts for your software.

Labels
and Bond Paper

Drug Package, Inc.

Standard Drug Package Dual Web Formats

The label portion of all standard formats is EDP material backed with a permanent, pressure-sensitive adhesive. The paper side features 50 lb. offset paper. Both sides may be imprinted in your choice of up to four colors. They are supplied in standard continuous feed and fan folded.

SPECIAL OPTIONS AND FORMATS FOR DRUG PACKAGE DUAL WEBS

DRUG PACKAGE CAN SUPPLY YOUR SPECIAL DUAL WEB FORM

Standard or custom designed dual web formats may be supplied with any of the following special options at a small additional charge.

- We will match your special colors when you supply a sample or designate PMS colors.
- Your dual webs may be ordered as single sheets or in rolls.
- For the label portion of the dual web you may choose removable adhesive and/or any of the following special materials:
KROMEKOTE (high gloss finish)
TYVEK (durable, polyethylene coated)
TWIN STOCK (2 ply material automatically copies information recorded)

THERMAL

If you don't see your special dual web format illustrated, or if you need special options for a standard format, Drug Package can supply them. You may send three complete copies of your current dual web, with the pin holes intact, and we will send a price quotation by return mail. Or give us a call:
